EDUCATION

Rutgers University School of Arts and Sciences

New Brunswick, NJ

Bachelor of Science, Computer Science | 3.51 GPA

May 2026

- **Relative Courses:** Intro To Computer Science, Data Structures & Algorithms, Computer Architecture, Discrete Math I & II, Linear Algebra, Numerical Analysis, Software Methodology, Intro To AI, Machine Learning Principles

PROFESSIONAL EXPERIENCE

EHI Cleantech | Python

Remote

Lead Data Analytics Intern

September 2024- December 2024

- Engineered and optimized a Python-based machine learning pipeline to classify investor archetypes, improving investor engagement prediction accuracy to 70% through feature engineering, model tuning, and iterative evaluation.
- Built data processing workflows to extract behavioral and financial patterns from investor datasets, enabling a 15% lift in targeted engagement strategies based on segmentation insights.
- Led the intern technical team by coordinating model development tasks, managing weekly sprint line check ins, and ensuring consistent integration of code contributions and analytical outputs.

Greenlit | JSX, Python, Web Development, API

Remote

Software Engineering Intern

May 2024- August 2024

- Created and maintained dynamic, responsive web pages with HTML and CSS, ensuring a seamless user experience. Developed using Node.js and React to maintain the frontend.
- Identified, documented, and resolved bugs, leading to a 25% improvement in app performance and user satisfaction.
- Contributed to project planning and provided accurate estimates for task completion, aiding in efficient project management.

PROJECTS

AI Conversational Chat Model | Python, Flask, scikit-learn

- Developed an NLP based conversational AI model capable of identifying user speech patterns and slang using text preprocessing, vectorization, and scikit-learn classification techniques to generate context-appropriate responses.
- Built a full-stack application with a Python Flask backend and a custom CSS styled frontend, enabling real time user interaction with the trained chat model through a clean web interface.
- Implemented model evaluation, iterative tuning, and response generation logic to improve linguistic pattern recognition and deliver natural, human like replies to informal inputs such as greetings or slang expressions.

Blogger Website | Node.js, Next, HTML, CSS

- Engineered a full-stack blogging platform using Node.js and Next.js with full CRUD functionality, allowing users to securely create, edit, and delete posts.
- Built a responsive, mobile optimized UI with HTML and custom CSS, improving usability and visual consistency across screen sizes.

LEADERSHIP & EXTRACURRICULAR

Rutgers Club Tennis

Piscataway, NJ

Executive Board

September 2024 – May 2026

- Organized and led in-club tennis tournaments to foster competition and engagement among team members
- Served as a liaison between the e-board and recreation team, facilitating clear communication and ensuring alignment to team goals and events. Executed on-campus events to increase team visibility and encourage campus participation.

Nar Narayan Dev Yuvak Mandal

Cinnaminson, NJ

Regional Coordinator

2017-Present

- Lead regional coordination across multiple temple chapters to plan and execute annual Northeastern summer camps and winter regional youth programs for 100 plus participants.
- Organize and supervise community service activities for youth, fostering leadership, teamwork, and cultural engagement.
- Mentor and teach students about Hinduism and key religious texts, guiding group discussions and promoting spiritual and cultural understanding.

TECHNICAL SKILLS

Programming: Java, C, SQL, Python, JSX, HTML, CSS, R

Skills: Node.js, Data Structures, Web Application Development, Visual Studio Code, Git/GitHub

Soft skills: Demonstrated Leadership, Adaptable, Organized, Communicative, Detail-oriented
